LF90CA-PD Inline Overflow Filler

LF90CA-C Inline Overflow Filler

Fully Automatic Liquid Filler

The LF90 Series of inline overflow fillers uses a modular design to satisfy a wide variety of filling needs and provides a large range of configurations.

These straight line fillers are constructed for pressure/gravity operation. Container sizes from 150 ml to 10 L can be accommodated.

LF90CA-PD Inline Overflow Liquid Filler

LF90CA-C Inline Overflow Liquid Filler

Specifications

Voltage	208-240 VAC 1 PH 60 HZ 1.25 HP
Power	10 amps
Controls	Mitsubishi PLC / Aromat touch screen
Max. Conveyor Speed	20 m (67') / min.
Max. Bottle Height	400 mm (15 3/4")
Conveyor Width	150 mm (6")
Air Consumption	2-3 c.f.m.
Nozzles	Stainless steel or PVC 7/16" up to 1 1/4"
Accuracy	+/- 1/32"
Optional	Drip tray Oversize tank Dead plates Stainless steel casters

Material

Stainless steel and anodized aluminum construction

Dimensions

Length	2915 mm (114 3/4")
Width	965 mm (38")
Conveyor Height	860 mm - 940 mm (34" - 37")

Specifications are subject to change without notice-

The LF90 Series of Inline Overflow Liquid Fillers has powerful features to meet production needs!!!

- ◆ LF90CA-C comes complete with a sanitary centrifugal pump.
- ◆ LF90CA-PD comes complete with a sanitary positive displacement pump.
- ◆ Pump draws from the built in tank sending liquid to the manifold and from there to the nozzles.
- ◆ Easy and fast adjustment for accurate fills.
- ◆ Can be adapted to different application needs allowing smooth production runs and no hassles for high efficiency.
- ◆ Built in stainless steel holding tank with level control.
- ◆ Overflow goes directly back into the holding tank.
- ◆ 316 stainless steel nozzles with Teflon seals and viton o-rings.
- ◆ The hoses connect to a rigid top body preventing hose strain from effecting nozzle performance
- ◆ 8 memory slots to store filling parameters for future use.
- ◆ Easy to integrate into a production line or in stand alone operation, it is the best machine in terms of cost and performance.
- ◆ Stainless steel threaded leveling feet.
- ◆ The machine is self contained needing only AC power, compressed air and to be connected to the main liquid supply.
